

not just software ... car hire experts

The web should be your #1 booking channel. That's why we have developed a **car hire booking system** that is so closely integrated to your cars+InterNET data that a change in price there is instantly reflected on the web.

No need to maintain rates, fleet or locations in more than one place!

- ✓ Instant confirmation, increased reservations
-
- ✓ Instant price changes
-
- ✓ Real time vehicle & rate availability respected
-
- ✓ Customisable branding and CMS
-
- ✓ Hosting at fantastic value
-
- ✓ Range of deployment options
-
- ✓ Google-friendly site structure

Complete online rental booking system

About Thermeon

Thermeon has more than 30 years of vehicle rental software development. cars+ is the #1 car rental software solution in the global vehicle rental industry. cars+ powers the national and international corporate systems of some of the largest global car rental brands.
