

Colleagues,

World Travel Market is running next week in London. As ever, we look forward to seeing many of you at this annual event. We've already got a packed meeting schedule but invite yourselves or colleagues to drop by Stand TT443 to say "Hello" at any time.

Training. Over the years we've always responded to your individual training needs. We'll continue to do that but our Training Team has identified a number of topics that should have general appeal, irrespective of the territory or brand that you serve. The Training Team will publicise forthcoming training sessions on www.thermeon.com - be sure to register in advance. Numbers will be limited in order to ensure you learn what you need from each session. Hopefully you will find this free resource useful.

Save time by using data imports

by Doug Sorensen, Technical Design Manager

Updating and maintaining critical data files can be a time consuming task on any system and in the past, cars+ was no different. To make this task easier, import programs have been created that merge data from a spreadsheet such as Microsoft's Excel into selected cars+ files.

Through this logic, new records can be loaded into the file, and existing records can be updated. Imagine:

- ✓ Making global changes to a "family" of rental rates for all classes in a spreadsheet and then loading those changed rates directly into cars+?
- ✓ Or how about making a global substitution of the grounding date for a class of vehicles in a spreadsheet and then importing that change into your fleet file?

How is this done?

1. For each import program, the user Manual provides a spreadsheet template.
2. Click on the link in the program's chapter to download the template to your PC.
3. Set up all the data to be imported.
4. Once the data is the way you want it, use the data export function of the spreadsheet program to export the data as a comma delimited (csv) file.
5. By accessing cars+ from the same PC, the cars+ import program will extract the file from your computer and process it into the correct data files.

The following is the growing list of the current programs available:

- [Import Vehicle File Records](#)
- [Import Customer Records](#)
- [Import Rental Rules and Rates](#)
- [Import Drop Charges](#)
- [Import Freedom Rates](#)
- [Import Flex Rate Tables](#)
- [Import Holiday Hours](#)
- [Import Future Fleet Adjustments](#)

| Vehicle | Curr. Status | Curr. Rate | Last Date |
|---------|--------------|------------|-----------|
| 51006 | 4302 | 8 | 54604 |
| 51007 | 4302 | 8 | 54608 |
| 51008 | 4622 | 8 | 54602 |
